Seeking a 6-month software development internship · starting January 2027

Open to relocation: France or abroad · On-site preferred · University internship agreement available

Summary

Career changer with **4.5 years as a logistics manager**, now completing a professional bachelor's degree in software development. I bring hands-on team leadership, a habit of delivering under constraints and a business mindset from my economics degree: understand the need first, then ship tested, maintainable software.

Projects

Équilibre IN PROGRESS Final-year project · solo

React Native · Expo · TypeScript · NestJS · MongoDB · Jest · Docker · Swagger

- Building a nutrition-tracking mobile app connecting **coaches and clients**: role-based spaces, personalised plans and weight tracking (connected-scale simulator).
- Running it **end to end**: full specifications, TDD, NestJS API in hexagonal architecture, MongoDB data modelling.

XIP Telecom v2 B2B telecom brokerage platform · team of 4

Next.js · TypeScript · PostgreSQL · Drizzle · OpenAI / Anthropic · Odoo · n8n · Vitest

- Built an **orchestrated AI agent layer**: request routing, prospect scoring and meeting preparation behind an abstract LLM provider.
- Integrated **Odoo CRM**, generated PDF audit reports stored on Nextcloud, documented the API and wrote **104 unit tests**.

KCD Formes v2 Online multiplayer game · solo · kcd-formes.fr

Java 21 · Spring Boot · PostgreSQL · Next.js · Phaser · WebSocket · Docker · GitHub Actions

- Rebuilt the game in **hexagonal architecture**: real-time 1v1 duel and co-op, server-side simulation, **100+ tests**.
- Deployed to my own VPS with Docker and HTTPS, plus a **CI/CD** pipeline that ships on every push.

RecycleDashboard Bio-waste collection management · Scrum Master

Next.js · TypeScript · PostgreSQL · Docker · Leaflet · VROOM

- Served as team **Scrum Master**: ceremonies, Jira backlog and sprint coordination.
- Designed route-delay assessment (3 cases), drag-and-drop route redistribution and **15 documented API routes**.

Also: COS Strasbourg (real client, document annotation), HR Evaluation (NestJS backend), Miyazaki Garden — details at wkhach.dev
